

CIU Faculty of Medicine

Faculty of Medicine has been operating since 1995 and has numerous successful and highly qualified alumni.

CIU is a member of **The World Directory of Medical Schools** (World Federation for Medical Education (WFME) and Foundation for Advancement of International Medical Education and Research (FAIMER)).

Caucasus International University was included in the list of acknowledged foreign Medical Institutions by Medical Council of India (MCI) in 2016 and it became a member of an International Association for Medical Education **"AMEE" in 2018**.

Modern infrastructure and technology contribute to creating a perfect environment both for professors and students.

Practical classes in clinical disciplines are conducted in leading Georgian clinics and Medical Institutions.

Anatomical Theatre and Clinical Skills Center are functioning at the faculty of Medicine. They are equipped with the latest educational-medical technologies – modern computer and high-tech equipment, simulators and other educational models manufactured by the International Corporation "3D Scientific". Clinical Skills Centre aims to give efficient and up-to-date education in clinical and practical skills to future doctors. Students have an opportunity to acquire basic clinical, emergency, obstetrics and gynecological, resuscitation, therapeutic and surgical practical skills. Clinical Skills Centre plays an important role in the upbringing and formation of highly qualified medical personnel.

Within the framework of the Dentistry Program, Phantom Cabinets and University Dental Clinic are operating at the university, which enable students to have direct contact with patients from an early stage of studies.

Teaching at the faculty is carried out in accordance with international standards. Academic courses are conducted by highly-qualified academic personnel and visiting professors.

Currently, more than 700 CIU medical students are the citizens of various countries, such as France, Poland, Portugal, Ukraine, Azerbaijan, Iran, Iraq, Turkey, Syria, Morocco, Nigeria, Egypt, India, Israel and Great Britain. The number of students significantly increases per term.
