TBILISI, GEORGIA

Soon it will become your second home

European University is located in Tbilisi, the beautiful and safe capital of Georgia, which hosts about 30 000 international students, most of them studying in medical programs. Tbilisi is an old city with a 1500-year-old history and magnificent old buildings, relatively cheap food and accommodation, and most importantly, very safe as the rest of Georgia.

Studying in Georgia isn't just about classes – it's about enjoying a beautiful country with lots of history and culture. Students can check out awesome landscapes, historical landmarks, and fun cultural events, making their time studying abroad really special.

During the holidays, international students often explore various historical and tourist cities in Georgia, such as the well-known Georgian seaside and mountain resorts. Even after completing their studies at European University, students maintain connections with the country and continue learning about Georgian culture. They also encourage their friends and acquaintances to pursue education in European University.

GEORGIA IS KNOWN FOR ITS WARM AND FRIENDLY PEOPLE, AND YOU CAN EXPECT TO CREATE LIFELONG BONDS WHILE STUDYING THERE.

YOU ARE ALWAYS WELCOME IN GEORGIA, SO DON'T WASTE TIME, COME AND STUDY IN EUROPEAN UNIVERSITY.

Ladies and Gentlemen,

I am honored to extend a warm welcome to each and everyone of you on behalf of the entire European University community. As the Founder and President of this esteemed institution, it is my privilege to share a few words about our university and the values we hold.

"European University" was founded with a vision to provide quality education. Over the years, we have grown and evolved, proudly offering two distinguished programs for our international students: Medical Doctor Program and Dental Medicine Program. These programs reflect our commitment to excellence in healthcare education, preparing students to make significant contributions to the medical field globally.

"Education Shapes the Future" - This powerful phrase encapsulates our belief in the transformative power of education. We strive to empower our students with knowledge, skills, and a global perspective that will not only shape their individual futures but contribute to the betterment of society as a whole.

The goal of the **"European University"** since its establishment has been to create an atmosphere where tolerance, friendship, equal rights, and mutual respect form the foundation. The university was built on these values. Today, students from all over the world are already part of this atmosphere, embodying these values and contributing to their development.

Our students' success is our success, and we are dedicated to providing the support and resources necessary for their journey. We are here to support, guide, and help them explore new abilities and horizons. I am confident that each of our students will play a pivotal role in shaping a brighter tomorrow.

As you embark on your exploration of **"European University,"** I invite you to delve deeper into the pages that follow, where you will discover the comprehensive offerings that make our institution truly exceptional.

In the upcoming sections, you will find a wealth of information about our state-of-the-art facilities, including our esteemed Jo Ann University Hospital and our cutting-edge dental clinic, EU Dent.

A handwritten signature in blue ink, appearing to be 'J. Ann', written in a cursive style.

Sincerely,
Lasha
Kandelakishvili
Founder and President

INTRODUCTION

European University is a dynamic institution, characterized by its rapid growth and commitment to development, operating since 1990. After rebranding in 2012 it operates as European University. The university includes three campuses and a modern student dormitory that can accommodate up to 500 students.

Additional facilities include a Historical-Archaeological Museum, the "EU Dent" dental clinic, and the "Jo Ann University Hospital", among others.

The university comprises of 4 faculties:

- Faculty of Law, Education, Business and Technology
- Faculty of Veterinary Medicine
- Faculty of Medicine
- Faculty of Dentistry

European University offers educational programs in both Georgian and English languages. It is home to four scientific-research institutes: the Institute of Law, the Scientific-Research Institute of Economic and Social Issues of Globalization, the Medical Research Institute, and the Andria Apakidze Institute of Archaeology. These institutes publish international refereed journals.

European University is focused on European values collaborating up to 90 higher education institutions abroad. Within this international partnerships students are able to use exchange programs and continue studying abroad.

The university has been honored three times as a Jean Monnet activity winner and successfully implements projects funded by the European Union.

Moreover, European University is dedicated to providing students with high-quality European education. The Student and Alumni Support Center facilitates student and alumni employment and internships through partnerships with esteemed organizations.

FACULTY OF MEDICINE

THE FACULTY CONDUCTS:

MEDICAL DOCTOR PROGRAM (LANGUAGE OF INSTRUCTION – GEORGIAN)

MEDICAL DOCTOR PROGRAM (LANGUAGE OF INSTRUCTION - ENGLISH)

The Faculty of Medicine of the European University has been operating since 2014. The aim of the faculty is to ensure the training of students in the healthcare field in terms of academic freedom and institutional autonomy.

The teaching process at the faculty is led by well-known and recognized specialists in the field, who have many years of medical and pedagogical experience. A variety of teaching and assessment methods provide an opportunity to master not only theoretical knowledge but gain practical skills as well.

The Faculty of Medicine has signed cooperation agreements with more than 60 clinics in Georgia and medical universities in different countries around the world.

Based on the aforementioned, apart from the practical training provided as part of the study program, students can undertake clinical rotations at various clinics around the world, get involved in ongoing research projects at the faculty, and participate in local and international scientific events.

There are two simulation centers at the faculty, where clinical/sectoral skills are taught and assessed through modern medical technologies, and mannequins in a simulation clinical environment.

LIBRARY

The library, located in all three buildings of the university, works every day, except Sundays.

The library's book fund consists of compulsory literature required for the implementation of educational programs operated by the University, as well as general publications, scientific and fiction, periodicals, digital literature, etc.

JO ANN UNIVERSITY HOSPITAL

The European University has become the owner of the Jo Ann Medical Center, which was renamed and at present is known as "Jo Ann University Hospital".

It is planned to increase the capacity of the university hospital by equipping it with multidisciplinary functions. The medical students of the European University undertake clinical rotations in the clinic, where they are supervised by the leading specialists in the field. The Jo Ann University Hospital offers both inpatient and outpatient services to its patients in accordance with the latest standards.

The Jo Ann Medical Center was founded twenty-six years ago by American philanthropist Jo Ann McGowan together with Georgian surgeons.

Over the years, the name **"Jo Ann Medical Center"** has been associated with the country's primary cardiology and cardiac surgery services. Lately, it has been transformed into a multi-functional medical facility.

LABORATORY

BLOOD BANK

THE JO ANN UNIVERSITY HOSPITAL CONSISTENTLY EXCELS IN PATIENT-CENTERED SERVICES. ONE OF ITS MAIN DIRECTIONS, UNTIL NOW, REMAINS THE FULL SPECTRUM OF CARDIOLOGY AND CARDIAC SURGERY FOR PATIENTS OF ALL AGES.

The latest treatment methods and technologies are constantly introduced and implemented in the clinic. An external quality control assessment of cardiac surgery for congenital heart defects in children and adults is being conducted on an ongoing basis by Boston Children's Hospital in the U.S.A. in the format of The International Collaboration for Quality Improvement.

**FOR YOU,
FOR YOUR HEART**

FACULTY OF DENTISTRY

THE FACULTY CONDUCTS:

DENTAL MEDICINE PROGRAM (LANGUAGE OF INSTRUCTION – GEORGIAN)

DENTAL MEDICINE PROGRAM (LANGUAGE OF INSTRUCTION - ENGLISH)

The educational program of the dental medicine of the European University

is built based on the recommendations of the Association for Dental Education in Europe (ADEE). Thus, graduates of our program receive knowledge and skills relevant to the demands of the international market.

The University is equipped with ultra-modern, digital technology-based learning resources, laboratories and simulation centers. European University also owns Dental Clinic "EU Dent" where students acquire the necessary practical skills within the educational program, also they have possibility to undergo extracurricular clinical practice. In addition, University has signed cooperation agreements with the leading dental hospitals in Tbilisi.

The program is also distinguished by academic and invited staff. Our teachers are the heads and founders of various professional associations and leading practicing clinicians.

Students of the faculty of Dentistry can join the scientific - research activities, also they can participate in the international exchange projects offered by the University. In this way, students gain knowledge about the latest advances in the field. Accordingly, the European University Dentistry program students acquire in-depth theoretical knowledge and necessary practical skills during their studies and become competitive specialists relevant to the modern environment.

EU DENT

At EU Dent Clinic, you will be greeted by professional doctors, who will take care of your oral health needs. We prioritize the individual requirements of each patient and employ a comprehensive team approach in our work.

Our clinic offers a variety of preventive and treatment procedures, including:

Professional cleaning

Treatment of gum diseases

Professional fluoridation

Sealing of fissures

Oral cancer screening

Personalized oral hygiene instructions

Endodontic treatment

Different type of tooth fillings

Whitening of teeth

Different types of orthopedic constructions: crowns, veneers, bridges, prosthetics on implants.

Surgical interventions: tooth extraction, implantation, periodontal surgery.

We utilize cutting-edge technologies and techniques to ensure comfortable conditions for patients of all ages.

From routine check-ups to complex procedures, we provide a wide range of dental services tailored to meet your individual needs.

EUROPEAN UNIVERSITY ALSO OFFERS:

Faculty of Law, Education, Business and Technology (GEO)

Bachelor's Degree Program in Law (GEO)

Bachelor's Degree Program in International Relations (GEO)

Bachelor's Degree Program in Business Administration (GEO)

Bachelor's Degree Program in Informatics (GEO)

Bachelor's Degree program in Tourism (GEO)

Bachelor's program in Archeology (GEO)

Teacher Training Program (GEO)

Integrated (Bachelor-Master) Educational Program of Secondary Education Teachers of Mathematics (GEO)

Integrated (Bachelor-Master) Educational Program for Elementary/Secondary Level Physics, Chemistry and Biology Teacher Training (GEO)

Master's Degree Program in Management (GEO)

Master's degree program in Education Administration (GEO)

Bachelor's Degree Program in Psychology (GEO)

BACHELOR'S DEGREE PROGRAM IN PSYCHOLOGY

The bachelor's program in psychology at **European University** prepares students to become qualified specialists in the field.

Upon completion of the program, graduates are ready for practical activities, equipped to make significant contributions to the development of the field, and positioned to pursue both personal and professional interests.

Upon completing the educational program in psychology, you will:

- Acquire a thorough knowledge of the field of psychology.
- Gain experience with leading public and private organizations in Georgia.
- Be competitive in both local and international markets.
- Apply the acquired knowledge and skills in practical situations.
- Participate in the processes of research planning, data analysis, and interpretation.
- Enhance skills such as cooperation, teamwork, creativity, critical thinking, and problem-solving.

BACHELOR'S DEGREE PROGRAM IN LAW (GEO)

The Bachelor of Law program places significant emphasis on the sector-specific English language, equipping students to take the International Legal English Examination (ILEC).

To foster students' employability, legal practice is a compulsory component of the program. Under this provision, students are placed in specific public or private institutions where they undertake various practical assignments.

Additionally, the program features an extracurricular Legal Aid Center. Through this center, students offer direct services to real clients, preparing documents, providing legal recommendations, and more. Since its inception, the Legal Assistance Center has assisted numerous clients, winning many court cases. Notably, last year, the Constitutional Court of Georgia upheld a constitutional lawsuit prepared by the Center.

BACHELOR'S DEGREE PROGRAM IN BUSINESS ADMINISTRATION (GEO)

The European University's undergraduate program in Business Administration has been developed with active participation from employers, keeping in mind the requirements and needs of the labor market. This program draws upon the successful experiences of leading local and international universities.

The learning environment, which aligns with modern international standards, along with a high-caliber educational process, provides the following advantages:

- An optimally structured curriculum and courses that focus on understanding the theoretical, methodological, and organizational foundations of business and entrepreneurship
- applying the fundamental principles of organizational behavior, team management, as well as quantitative and statistical methods essential for business research and evaluation
- A practicum, exclusive to our program, which emphasizes the practical application of knowledge gained throughout the program

AN UNIVER

on Shapes the Future

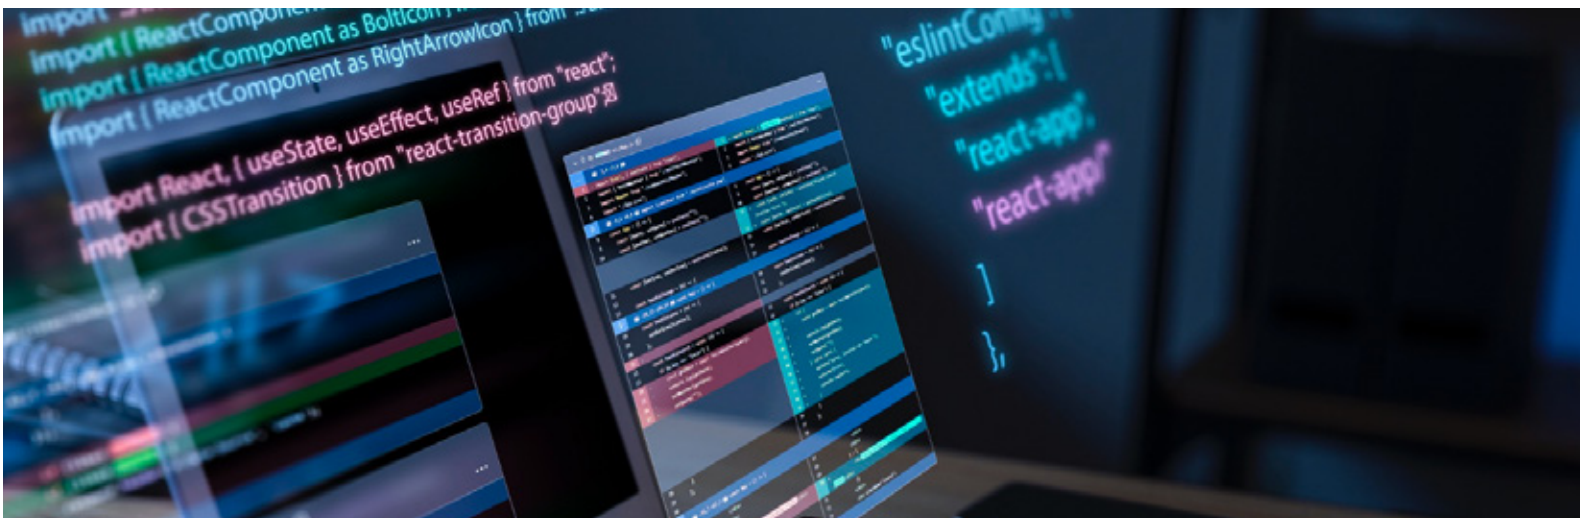

BACHELOR'S DEGREE PROGRAM IN INFORMATICS (*GEO*)

European University's undergraduate program in Informatics presents students with unique opportunities:

- Practice-oriented Teaching: Students spend a significant amount of time on practical work during their courses, allowing them to hone their hands-on skills
- Modern Technology Training: Courses encompass all the contemporary approaches and technologies vital for software planning and development
- Real Project Experience: Students have the chance to immerse themselves in a real-world working environment within the university, undertake internships, and apply their acquired knowledge in tangible settings

The university houses the specialized EU LAB, where students can bring software, website, or mobile app ideas to life. This lab nurtures innovation, offering students a platform to launch their concepts.

BACHELOR'S DEGREE PROGRAM IN TOURISM (GEO)

The Tourism Bachelor program of European University draws from the successful experiences of both local and international universities. Training courses are conducted by professional lecturers, representatives from the tourism sector, heads of tourism companies, hotel managers, seasoned guides, and other invited specialists actively practicing in the field.

A cornerstone of the program is its mandatory professional practice segment. Within this structure, students undertake internships at designated tourism organizations, tackling a range of practical tasks.

Students are also privileged to attend training sessions and certification courses coordinated by the Center for Innovative Learning. There's a plethora of international events curated by the International Relations Service, including certification courses led by distinguished experts from Europe and America.

TEACHER TRAINING PROGRAM (*GEO*)

The strengths of this program lie in its relevance to the challenges of the 21st century and industry requirements. The academic staff comprises visiting lecturers and courses led by professional lecturers, researchers from the National Center and the Ministry of Education, subject experts, authors and trainers of the teacher professional standard and the MCC (Millennium Challenge Corporation) project module.

A key component of the program is the mandatory pedagogical practice. Within this framework, students apply their knowledge and skills in specific public or private schools, striving to create a student-oriented learning environment.

The university is keen on employing graduates from this program. Notably, over 80% of our students find employment annually.

BACHELOR'S PROGRAM IN ARCHEOLOGY (GEO)

In the bachelor program of Archaeology, special attention is given to archaeological field practices, which are taught as a mandatory component over the span of three semesters. During these practices, students use modern technologies to master the fundamental principles essential for reconnaissance, excavation, and camera work.

Since 2018, the European University has been home to the Andria Apakidze Institute of Archaeology. Additionally, it houses the first historical-archaeological museum in the Georgian private university domain. This museum has a range of significant archaeological collections. To support its educational programs, the museum space is outfitted with contemporary technical tools, facilitating both cognitive and practical educational experiences for students.

Beginning in 2018, the Institute of Archaeology and the Historical-Archaeological Museum at the European University, both named after academician Andria Apakidze, commenced publishing a scientific research journal titled "Archaeology."

FIRST EUROPEANS!
DMANISI, GEORGIA

MASTER'S DEGREE PROGRAM IN MANAGEMENT (*GEO*)

The advantages of the master's program in management include:

- Teaching using interactive methods. This approach fosters the development of skills in complex/situational analysis and problem-solving related to the functional field of business and/or organizational management
- The chance to interact directly with major local or international partners, business leaders, leading theoreticians, and practical researchers from the field in various formats, offering students the ability to consult and share experiences
- Opportunities for internships or practical training in leading organizations in Georgia, as well as potential employment opportunities

MASTER'S DEGREE PROGRAM IN EDUCATION ADMINISTRATION (*GEO*)

In the Georgian context, this program stands out as it encompasses three levels of education: school, professional, and higher education.

Within the program, students will acquire in-depth and systematic knowledge of educational research methodologies and methods. They will understand the legal framework governing school, professional, and higher education institutions in both national and international contexts. Additionally, they'll grasp trends in education, essential for leaders in the educational field to manage the education system and institutions effectively.

Graduates will be competitive in both local and international employment markets. They will have the capability to contribute to the development of the field and further the implementation of Georgia's national state interests.

FACULTY OF VETERINARY MEDICINE

INTEGRATED MASTER'S EDUCATIONAL PROGRAM OF VETERINARY (GEO)

The Faculty of Veterinary Medicine at European University launched the integrated master's education program in veterinary medicine for the 2022-2023 academic year. The program spans five years and encompasses both educational and scientific research components. Significant emphasis is placed on the development of transferable skills. English language courses in the program cater to students of all proficiency levels and conclude with a focus on sector-specific English.

The OSPE (Objectively Structured Practical Examination) and OSCE (Objectively Structured Clinical Examination) assessment methods have been introduced to evaluate students' practical and clinical competencies in both preclinical and clinical training courses.

To attain the learning outcomes set by the program, heightened focus is given to the essential components of clinical and industrial practice.

Upon completion of the integrated master's education program in veterinary medicine, graduates are conferred with the academic title of "Master of Veterinary Medicine".

INTERNATIONAL RECOGNITION

European University is an institutionally and programmatically accredited higher education institution in Tbilisi, Georgia.

- Our medical program is accredited according to the World Federation of Medical Education (WFME) requirements by international and local experts.
- The Medical School is listed on the World Directory of Medical Schools with the sponsor note related to the USA and Canada. Several of our students have already applied for USMLE exams.
- Our graduates can also apply for GMC and GDC exams in the United Kingdom.
- The Medical School is recognized by ECFMG and FAIMER (FAIMER SCHOOL ID F0003369).
- Our medical school is recognized by the Australian Medical Council, the Pakistani Medical and Dental Council, the Council of Higher Education of Turkey (YÖK), the National Medical Commission of India and many other countries.
- Our qualifications are recognized in the European Union. For example, European University is in the recognized universities list of the German Anabin Database and Dutch Education Database.

Qualifications issued by European University is recognized in:

- United Arab Emirates
- Qatar
- Saudi Arabia
- Lebanon

INTERNATIONAL ASSOCIATIONS

Institutionally, European University is a member of several international associations:

Association for Dental Education in Europe (ADEE)

European University has become an institutional member of the Association for Dental Education in Europe (ADEE).

Short list of benefits of the institutional membership for our students and staff of Georgian and English dental medicine programs are as follows:

- Participation in the only pan-European dental education network
- Full institutional access (all staff and students) to the European Journal of Dental Education
- Greatly reduced attendance fee at ADEE annual meeting and events for the staff and students
- Access to ADEE Executive Committee and other expert panels

European University Association (EUA)

European University is an Individual Associate Member of European University Association (EUA). The Association provides members with unique opportunities to shape European policies and ensures that the independent voice of European universities is heard wherever decisions are being taken.

European Science Engagement Association (EUSEA)

European University is the first private institution in Georgia to become a member of EUSEA. EUSEA represents a vital bridge between science and society. The Association interprets science in its widest sense to encompass the myriad of subject areas and to create various platforms that facilitate the sharing of best practices between scholars, policymakers, and innovators around Europe.

INTERNATIONAL PROJECTS

Ongoing:

- *CBHE Project - Development of Veterinary Faculties at Georgian HEIs to Create a New Pool of Young Veterinary Professionals in Georgia*
(VETPRO, ERASMUS-EDU-2022-CBHE-STRAND 1-101082479)
- *CBHE Project - Enhancement of Special Oral Healthcare Practice and Lifelong Learning among Dental Practitioners in Georgia*
(HEAL, 101129331)
- *Jean Monnet Module - European Union Enlargement: Past Lessons for Future Decisions*
(EnlargEU, 101127859)
- *EMDM Project – Slow Tourism Management*
(STM, 101081943)

Completed:

- *Jean Monnet Project - Advancing European Values and Standards in Georgian Schools*
(EU-GS, 620893-EPP-1-2020-1-GE-EPPJMO-PROJECT)
- *Jean Monnet Module - Europeanization as an Instrument for Democratization of Georgia*
(EIDM, 620916-EPP-1-2020-1-GE-EPPJMO-MODULE)

In 2021-2022, the **Faculty of Medicine** announced a call for participants to undertake clinical rotations offered in the frames of the **IFSMA** (*International Federation of Medical Students Associations*) exchange project.

Within the exchange project, six students of the medical doctor program were selected to undertake one-month (28 days) clinical rotation in one of the project countries: Alikya Chipurupalli (clinical rotation in Italy), Sahishnuta Suryakant Deshmukh (clinical rotation in Hungary), Reet Agarwal (clinical rotation in Romania), Uppal Ravisha (clinical rotation in Peru), Joli Jincy Mariya (clinical rotation in Serbia), Rishu (clinical rotation in Moldova).

Within the project, the European University planned clinical rotations for six incoming students from project host countries. The costs of living and costs of clinical rotation were reimbursed for both outgoing and incoming medical students.

ALIKYA CHIPURUPALLI

Alikya Chipurupalli, an alumna of the European University's English Medical Doctor Program, achieved a remarkable **score of 229 out of a maximum of 300 points in the Indian Licensing Examination (FMGE)**, securing a position within the top four ranks nationwide.

Notably, she attained the highest score among Georgian graduates who took the licensing exam.

"Having recently completed my studies at "European University," I managed to secure a position among the highest achievers in the foreign medical licensing exam (FMGE 2023) on my very first attempt. I wish to extend my heartfelt gratitude to my university and the exceptional faculty members who aided me not only in taking this exam but also in my practical training and overall professional growth. The curriculum at "European University" adheres to both Indian and international standards. The practical clinical training offered at the university's dedicated clinic, Joe Ann University Hospital, greatly contributed to honing my practical skills in alignment with my personal interests," said Alikya Chipurupalli.

ERASMUS+ STUDENT EXCHANGE PROGRAM

The students of the Faculty of Medicine are given an opportunity to participate in the Erasmus+ student exchange program, in which all expenses (costs of living, travel costs, insurance, etc.) are covered by the program. Apart from that, the Faculty of Medicine also provides individual financing for its students to undertake mobilities at partner universities in Europe. The International Relations Office provides full support to students in the preparation of application forms, visa applications, accommodation, and other issues.

STUDENT LIFE

There is no time for boredom! Don't hide your talents! **The European University** offers you numerous student clubs and groups: sports clubs, a music club, and an art club.

Every year, we organize a wide range of parties and events for our students (Welcome party, Graduation party, New Year Party, etc.), as well as trips and excursions around the country, charitable and social responsibility events, etc. At the European University, we care about creating and maintaining an interesting and diverse student environment.

EU FUTSAL TEAM

The EU Futsal Team was formed in 2016 and has quickly moved into the higher league. It has shown several unbeaten series at Universiadas (University Sports Foundation of Georgia).

EU CHOREOGRAPHIC ENSEMBLE

The EU Choreographic Ensemble was established in 2015 upon the initiative of the students. The ensemble has choreographed twelve dances with modern choreographic elements since its establishment.

The ensemble is financially supported by the European University.

The ensemble has participated in numerous dance festivals across Europe and Asia and has won numerous awards and prizes in the last five years.

MULTICULTURAL FESTIVAL AT EUROPEAN UNIVERSITY

Students from more than 80 countries were represented in the yard of the European University student dormitory and shared their cultures on the big stage.

The Georgian Choreographic Dance Ensemble of the European University opened the festival, after which foreign students continued the event with performances specially prepared for this day.

A group of young people are captured in a joyful moment at night, likely during a cultural festival. In the foreground, three young women are smiling and dancing. The woman on the left wears a blue sari with a yellow border and glasses. The woman in the middle wears a red sari with a gold border. The woman on the right wears a red sari with a gold border and a patterned blouse. In the background, a young man with a beard and a black shirt is smiling, and another young man in a blue shirt is also smiling. The background is filled with other people and bright, out-of-focus lights, creating a festive atmosphere.
